

STAND INFORMATION

LiGHT26

18 & 19 NOVEMBER 2026 • BUSINESS DESIGN CENTRE • LONDON

lightexpo.london

Stand Information

Shell scheme stands at LiGHT Expo will be constructed from traditional wooden panels and finished in white.

On the following pages you can see examples of the various layout configurations and stand heights across the event.

Please note that the hall is fully carpeted with dark grey carpet tiles.

Additional floorcovering is NOT included in your shell scheme package, this can be ordered as an extra via the exhibitor manual.

Floorcovering optional extra.

General Notes:

1. There is NO access for wiring behind your stand as this will either be a neighbouring stand OR a venue solid wall. Please ensure that all wiring is undertaken on the 'front' of your walling.

2. If any one side of your stand is 4m wide or over there may be an end panel required on your open edge to keep the wall up.

Depending on the configuration of the block you are located on this will be either 0.5m or 1m. We will advise you of this in advance of the event but please speak with the Ops team if you need more information.

IMPORTANT NOTICE - Traditional Panels Recommended fixings methods are:

Screws, pins, nails & staples. For advice on fixings methods please contact the service desk opposite the organiser's office.

Please ensure all fixings are carefully removed from panels at the close of the show. A charge will be applied if fixings are not removed.

We ask that exhibitors please **DO NOT** use the following fixing methods on panels:

Rawl plugs, cavity fixings and adhesive fixings (e.g. Velcro, double sided tape & any type of adhesive including wallpaper paste).

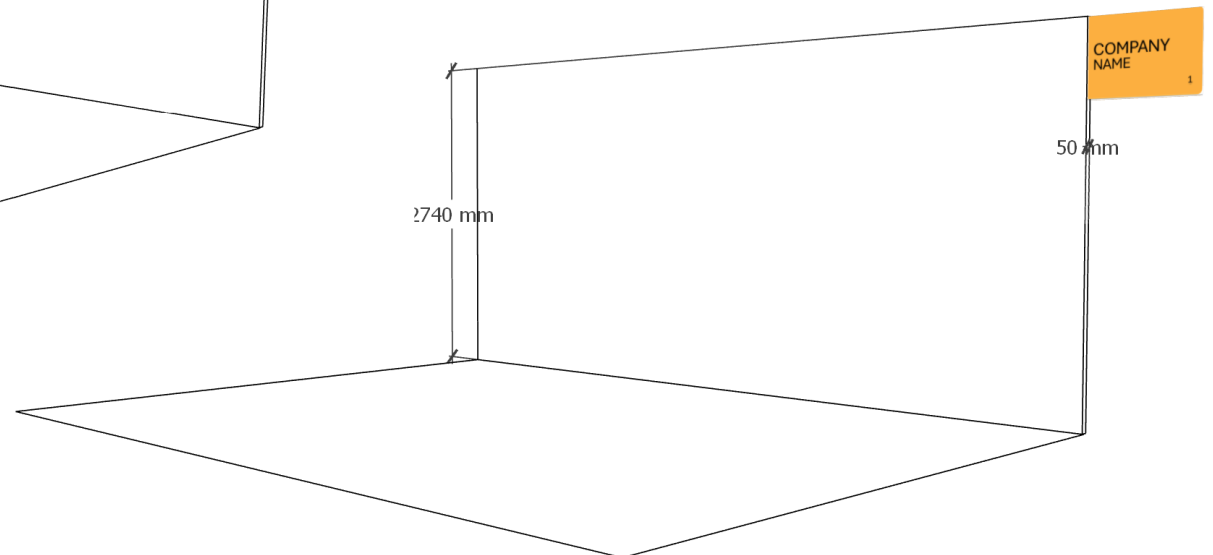

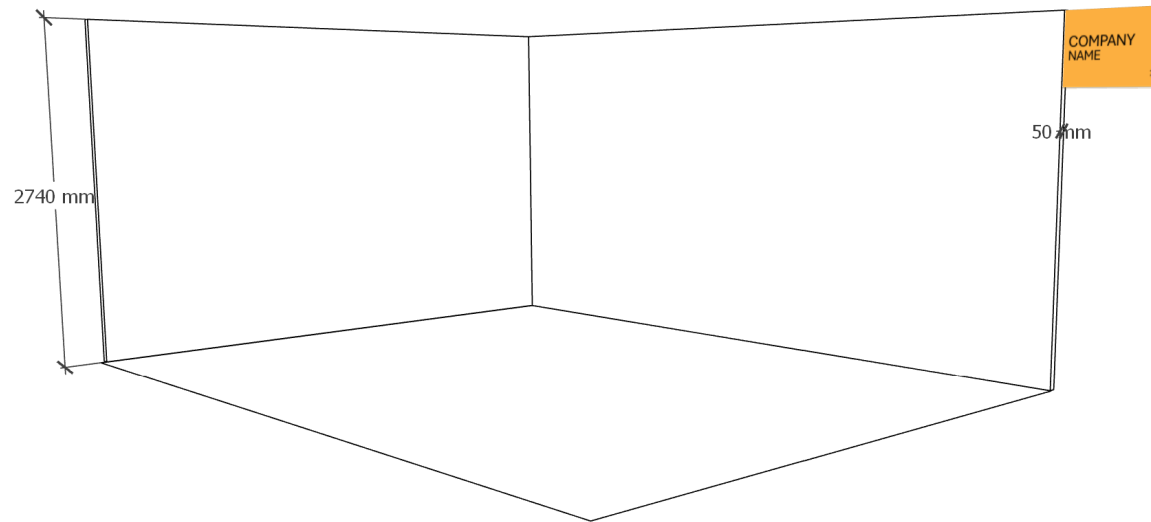

A charge will be applied for any exhibitor; painting stands panels or for any damaged stand panels - if you wish to paint or wallpaper your stand please order painted panels OR MDF overlays via the exhibitor manual.

LiGHT26

[d]arc media

[d]arc media has an intimate knowledge of the lighting specification market, publishing magazines and online content as well as organising dedicated events targeted at lighting designers, architects, interior designers and specifiers.

arc and **darc** magazines are the leading international publications for architectural and decorative lighting specification.

[d]arc awards is the only peer-to-peer awards programme for the lighting design profession since its inaugural event in 2015.

[d]arc sessions is a new networking event bringing suppliers and specifiers together in the relaxed surroundings of international resorts.

LiGHT builds on the success of the much-loved **ARC Show**, which ran from 2004 to 2009 at the Business Design Centre. **LiGHT** is a new offering for lighting design built on [d]arc media's knowledge and experience of the lighting specification market.
